Subject: Our river needs a cleanup

I want to make sure the federal government doesn't send a big bill to business and households for the river cleanup.

It's important to remember that the river is also a key driver in Portland economic engine. We all love the Willamette and its role in our environment. But I hope that you'll also factor in the important jobs the harbor provides.

Thank you for allowing me to weigh in on this important process. Please make sure the cleanup is good for our environment and our economy. I am a life long resident of St. Johns and grew up fishing and playing along this stretch of the Willamette river, I truly believe that a solution can be agreed upon to satisfy all parties involved. Industries have provided good jobs to the people who live here, and if radical special interest groups had their way all industries they don't agree with would simply be bankrupted and go away, taking yet more family wage Middle income jobs out of Portland. Evraz Inc. provides my family a stable income and way of life that service industries could never do for me or my fellow employee's. our company is dedicated to being a responsible business and landowner to the environment and community where it is located. I have always lived here in St. Johns and will continue to do so because of my pride in this area and my employer

Sincerely, (b) (6)
